Do everything clean and perfect
-  **Creative**  
Creative thinking makes website unique

### LANGUAGES

English   Proficient   ●●●●●

### SUMMARY

Senior Front-End Developer with 9 years of proven leadership and meaningfully contributions to teams of varying size and scope. With my results-driven mentality, I transformed my team at GitHub by seeking, learning, and teaching new, efficient technologies to make aggressive deadlines consistently achievable. Passionate about going the extra mile to ensure the customer is unquestionably satisfied with the product or service provided. With emphasis on scalable and well-documented code, I look forward to working collaboratively as well as spearheading independent projects at Accenture.

### EXPERIENCE

#### Senior Front-End Developer

Anedot

📅 01/2017 - 01/2023   📍 Dallas TX

- Led development team of 5 to create GitHub pages, allowing customer repositories to be hosted directly.
- Implemented AWS to allow easy iteration in company cloud infrastructure.
- Created new documentation for MaterialUI that prevented the need for a 3-week onboarding course.
- Mentored 8 new junior front-end developers on team in expanding JavaScript, React, and Angular skillset.
- Worked with PM/IM to keep on track with the project plan, timeline, and billing.
- Led bi-weekly stand-up to ensure team worked effectively, using coaching strategies to increase efficiency by 10%.
- Worked with Quality Assurance to get new pages/products tested, and addressed any issues within 48 hours.
- Worked on Agile Development system and accomplished CI/CD with git actions.
- Used middleware in application to retrieve data from Back-End and to also perform RESTFUL services.
- Reduced the time spent on development by 53% with creating maintainable and reusable components.

#### Lead Front-End Developer

Blinksale

📅 09/2012 - 01/2017   📍 Dallas TX

- Participated in the initial wave of developers learning and implementing the React.JS library.
- Rewrote HTML to meet industry and company standards for SEO and Accessibility.
- Tested, debugged, and shipped 10s of 1000s of lines of code to various development teams.
- Introduced Kanban Board style ticketing system to promote highly efficient asynchronous and synchronous work, increasing efficiency by 12%.
- Utilized HTML, CSS, and JavaScript to create 100+ responsive landing pages for both company and client.
- Maintained graphic standards and branding throughout the product's interfaces.
- Built Front-End from scratch React/Typescript with provided Figma
- Built high-performance customer facing user interface using ReactJS, Redux- saga, Hook, Tailwind CSS.
- Collaborated closely with graphic designers to create beautiful, functional, and fast interfaces.
