English fluency ●●●●●

### SUMMARY

Senior Front-End Developer with 5 years of proven leadership and meaningful contributions to teams of varying size and scope. I have a strong foundation in web development technologies including HTML, CSS, JavaScript, and jQuery. I am skilled in developing responsive and user-friendly interfaces, as well as integrating with backend systems and APIs. With a keen eye for design and attention to detail, I am able to produce high-quality code that meets project requirements and exceeds user expectations. My experience working in agile development environments has honed my ability to collaborate with cross-functional teams, communicate effectively, and deliver projects on time and within budget.

### EXPERIENCE

#### Senior Front-End Developer

CodeCraft Studios

📅 10/2020 - 01/2023 📍 Dallas TX

- Collaborated remotely with cross-functional teams to develop and maintain responsive web applications using HTML, CSS, and JavaScript.
- Led frontend development efforts, providing technical guidance and mentoring junior developers to ensure high-quality code and adherence to best practices.
- Worked closely with UX/UI designers to transform wireframes and mockups into visually appealing and user-friendly interfaces.
- Implemented modern frontend frameworks and libraries such as React or Angular to enhance application functionality and user experience.
- Integrated frontend code with backend systems and APIs, ensuring seamless data flow and efficient communication.
- Conducted regular code reviews, providing constructive feedback to improve code quality and maintain consistency across projects.
- Actively participated in remote agile development processes, including sprint planning, daily stand-ups, and retrospectives.
- Utilized collaborative tools such as Slack and Zoom to communicate effectively with team members and stakeholders.
- Successfully delivered multiple projects on time and within budget, meeting client requirements and exceeding expectations.

#### Junior Front-End Developer

Northern Lights Web Design

📅 09/2018 - 08/2020 📍 Dallas

- TX Participated in the initial wave of developers learning and implementing the React.JS library.
- Rewrote HTML to meet industry and company standards for SEO and Accessibility.
  - Tested, debugged, and shipped 10s of 1000s of lines of code to various development teams.
  - Introduced Kanban Board style ticketing system to promote highly efficient asynchronous and synchronous work, increasing efficiency by 12%.
  - Utilized HTML, CSS, and JavaScript to create 100+ responsive landing pages for both company and client.
  - Maintained graphic standards and branding throughout the product's interfaces.
  - Built Front-End from scratch React/Typescript with provided Figma
  - Built high-performance customer facing user interface using ReactJS, Redux- saga, Hook, Tailwind CSS.
  - Collaborated closely with graphic designers to create beautiful, functional, and fast interfaces.
