Robert Wang

AI Developer

As an experienced AI developer, I have extensive knowledge in designing and implementing intelligent systems using various programming languages and machine learning technologies. With my strong analytical and programming skills, I can solve complex problems and develop optimized solutions. I am highly motivated and have excellent interpersonal skills, which allow me to work collaboratively in a team environment.

Education

Master of Science in Information Technology (MSc(IT))
University of Turku
2010 – 2015   *Turku, Finland*
| computer science and AI field.

Work experience

AI Senior Developer
SAP SE
10/2020 – 09/2023   *Munich*

• Develop and implement intelligent systems incorporating deep learning and artificial intelligence techniques
• Design new algorithms and improve existing ones to solve complex business problems
• Promote the use of machine learning and AI technologies across the organization and provide technical support for integration into existing systemsmachine learning

Juinor AI Developer
Celonis SE
04/2016 – 07/2020   *Munich*

• Assisted in designing and implementing AI algorithms and models
 • Developed proofs of concept to identify potential applications of machine learning technologies
• Assisted in producing analytical reports and presentations on the benefits of integrating AI technologies into the organization

Skills

Python   Data Science   Data Analysis   Machine Learning

Software Architecture   Chatbot   Deep Learning

Computer Vision/Image Processing
